Technical descriptions

Rondò

Shell
It has three different heights made of polyurethane injected foam and sponge. The chair is upholstered in leather or fabric.

Star base
Is made of aluminum die casting of western European origin. Five star base is on wheels & four star base is on rubber glides for floor protection. The chair has a hydraulic height adjustment Italian mechanism. And the one on wheels is equipped with Italian tilting mechanism that can be regulated and locked.

Waiting chairs base
Metal legs: manufactured using nickel-chromed steel tubes with plastic glides for floor protection. Wooden legs: manufactured using plywood that is covered in oak or walnut veneer.

Bench
The bench is produced as 3 seats or 4 seats, with the possibility of having a 50 cm round wooden table top. Legs are nickel chromed with feet that can be regulated up to 1 cm.
